Enthusiastic Computer Science graduate with a keen interest in software engineering. I bring three years of experience as a Software Laboratory Assistant and one year as an Operation and System Development Staff at Binus University. Actively pursuing personal and professional growth, I am engaged in freelance projects to stay updated with industry trends. Eager to apply my skills and knowledge in a challenging software engineering role.

Work Experience

Application Developer

Feb 2023 - Feb 2024

Bina Nusantara University
